Allowable Subject Matter

1. Claims 1-20 are allowed.

The following is an examiner's statement of reasons for allowance: As to claim 1, the primary reason for allowance is the limitations directed to the backsheet having a free portion and fixed edge portion attached with a plurality of elastic members arranged in a transverse direction. As to claim 11, the primary reason for allowance is the limitation directed to the backsheet having a portion exposed through first and second opening of the topsheet and core. The overall claimed combinations as cited in claims 1 and 11 are is neither anticipated nor rendered obvious by the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

2. This application is in condition for allowance except for the following formal matters:

Claim 1 is objected to because the term "said free portion out of said free portion" lacks antecedent basis.

The abstract should be in narrative form and generally limited to a single paragraph on a separate sheet within the range of 50 to 150 words. It is important that

the abstract not exceed 150 words in length since the space provided for the abstract on the computer tape used by the printer is limited.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

As allowable subject matter has been indicated, applicant's reply must either comply with all formal requirements or specifically traverse each requirement not complied with. See 37 CFR 1.111(b) and MPEP § 707.07(a).
